

# Greenwich

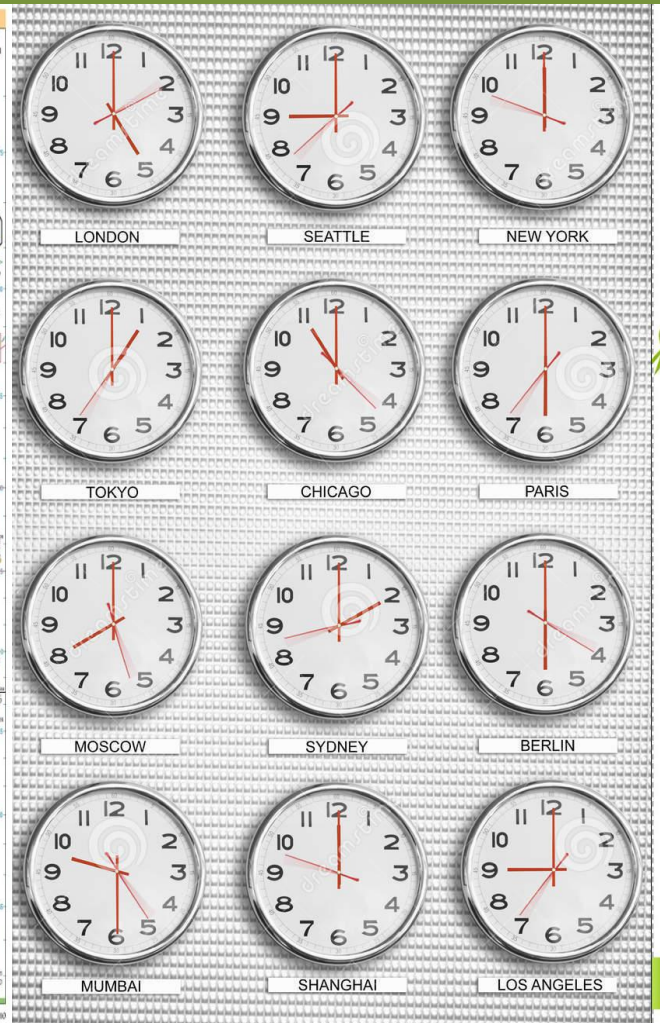

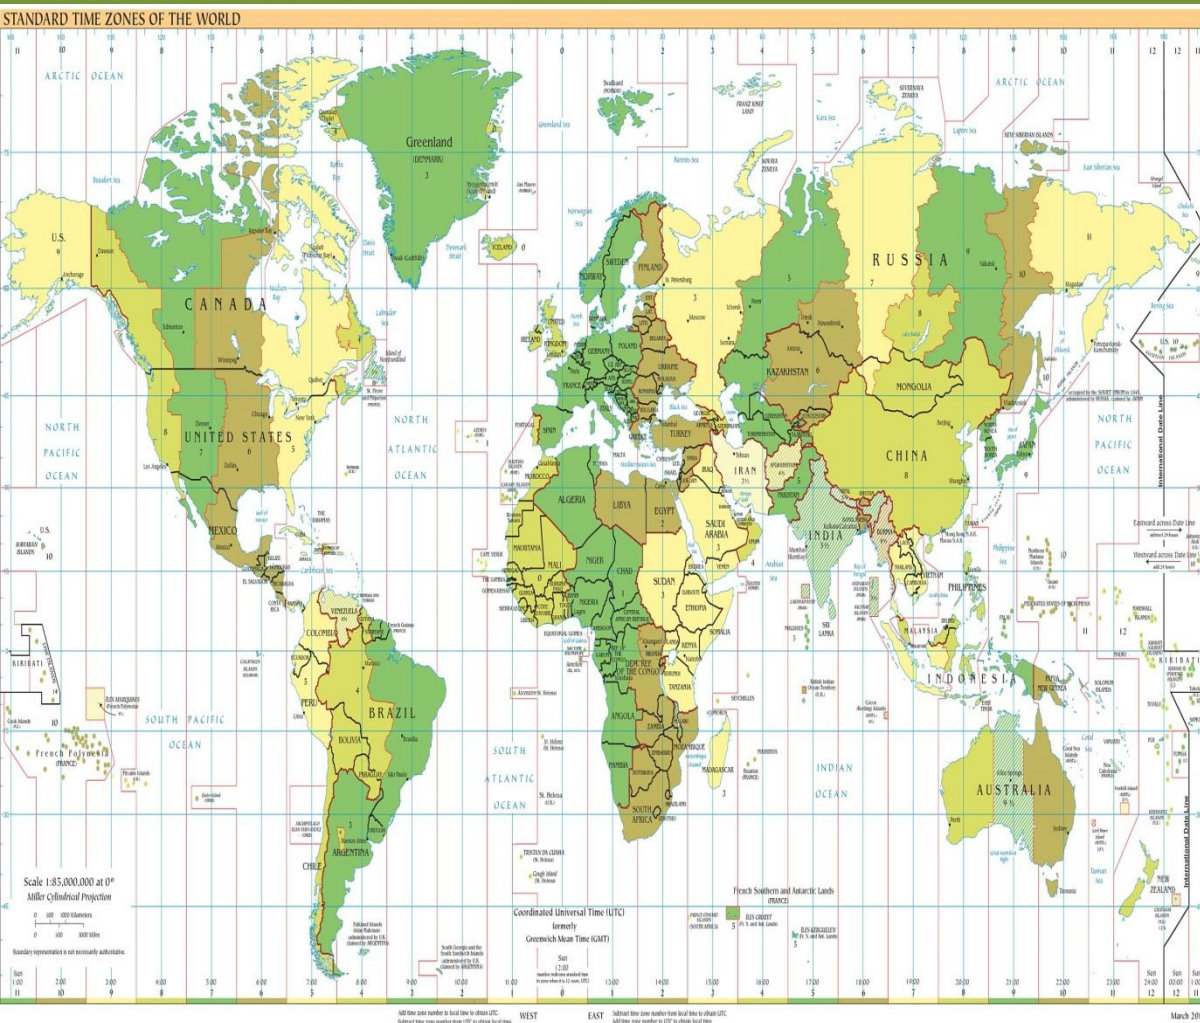

Greenwich is a Prime Meridian time line. It's the centre of world time. It's the starting point for each new day, year and millennium in the world.

There are 24 time zones in the world – one for each hour of the day.

When it's 12 o'clock noon in Greenwich it is 2 o'clock in Sydney , but 7 o'clock in the morning in New York. But in Tokyo it's 1 o'clock in the evening.

The Royal Greenwich Astronomical Observatory is the most cherished monument.

Greenwich is a beautiful town in England. It is situated on the hill in the south-west part of London. It's on The River Thames. When you are at the Greenwich Royal Observatory, you can visit park here.

We chose Greenwich, because it is  
magic place. Only here you can stand  
on time line.

# Thank you
