

# London

**Aleksandra Zięzio i Paulina Sas**

**class 6**

**London the capital of Great Britain, is located in the south of England on the Thames. It is one of England's largest cities. There are many exciting and interesting sights.**

***London is my favorite place because there are many sights and attractions. I think London is a beautiful city that is certainly worth visiting, major attractions and monuments are the Tower Bridge, Big Ben, London Eye and Buckingham Palace.***

# Big Ben

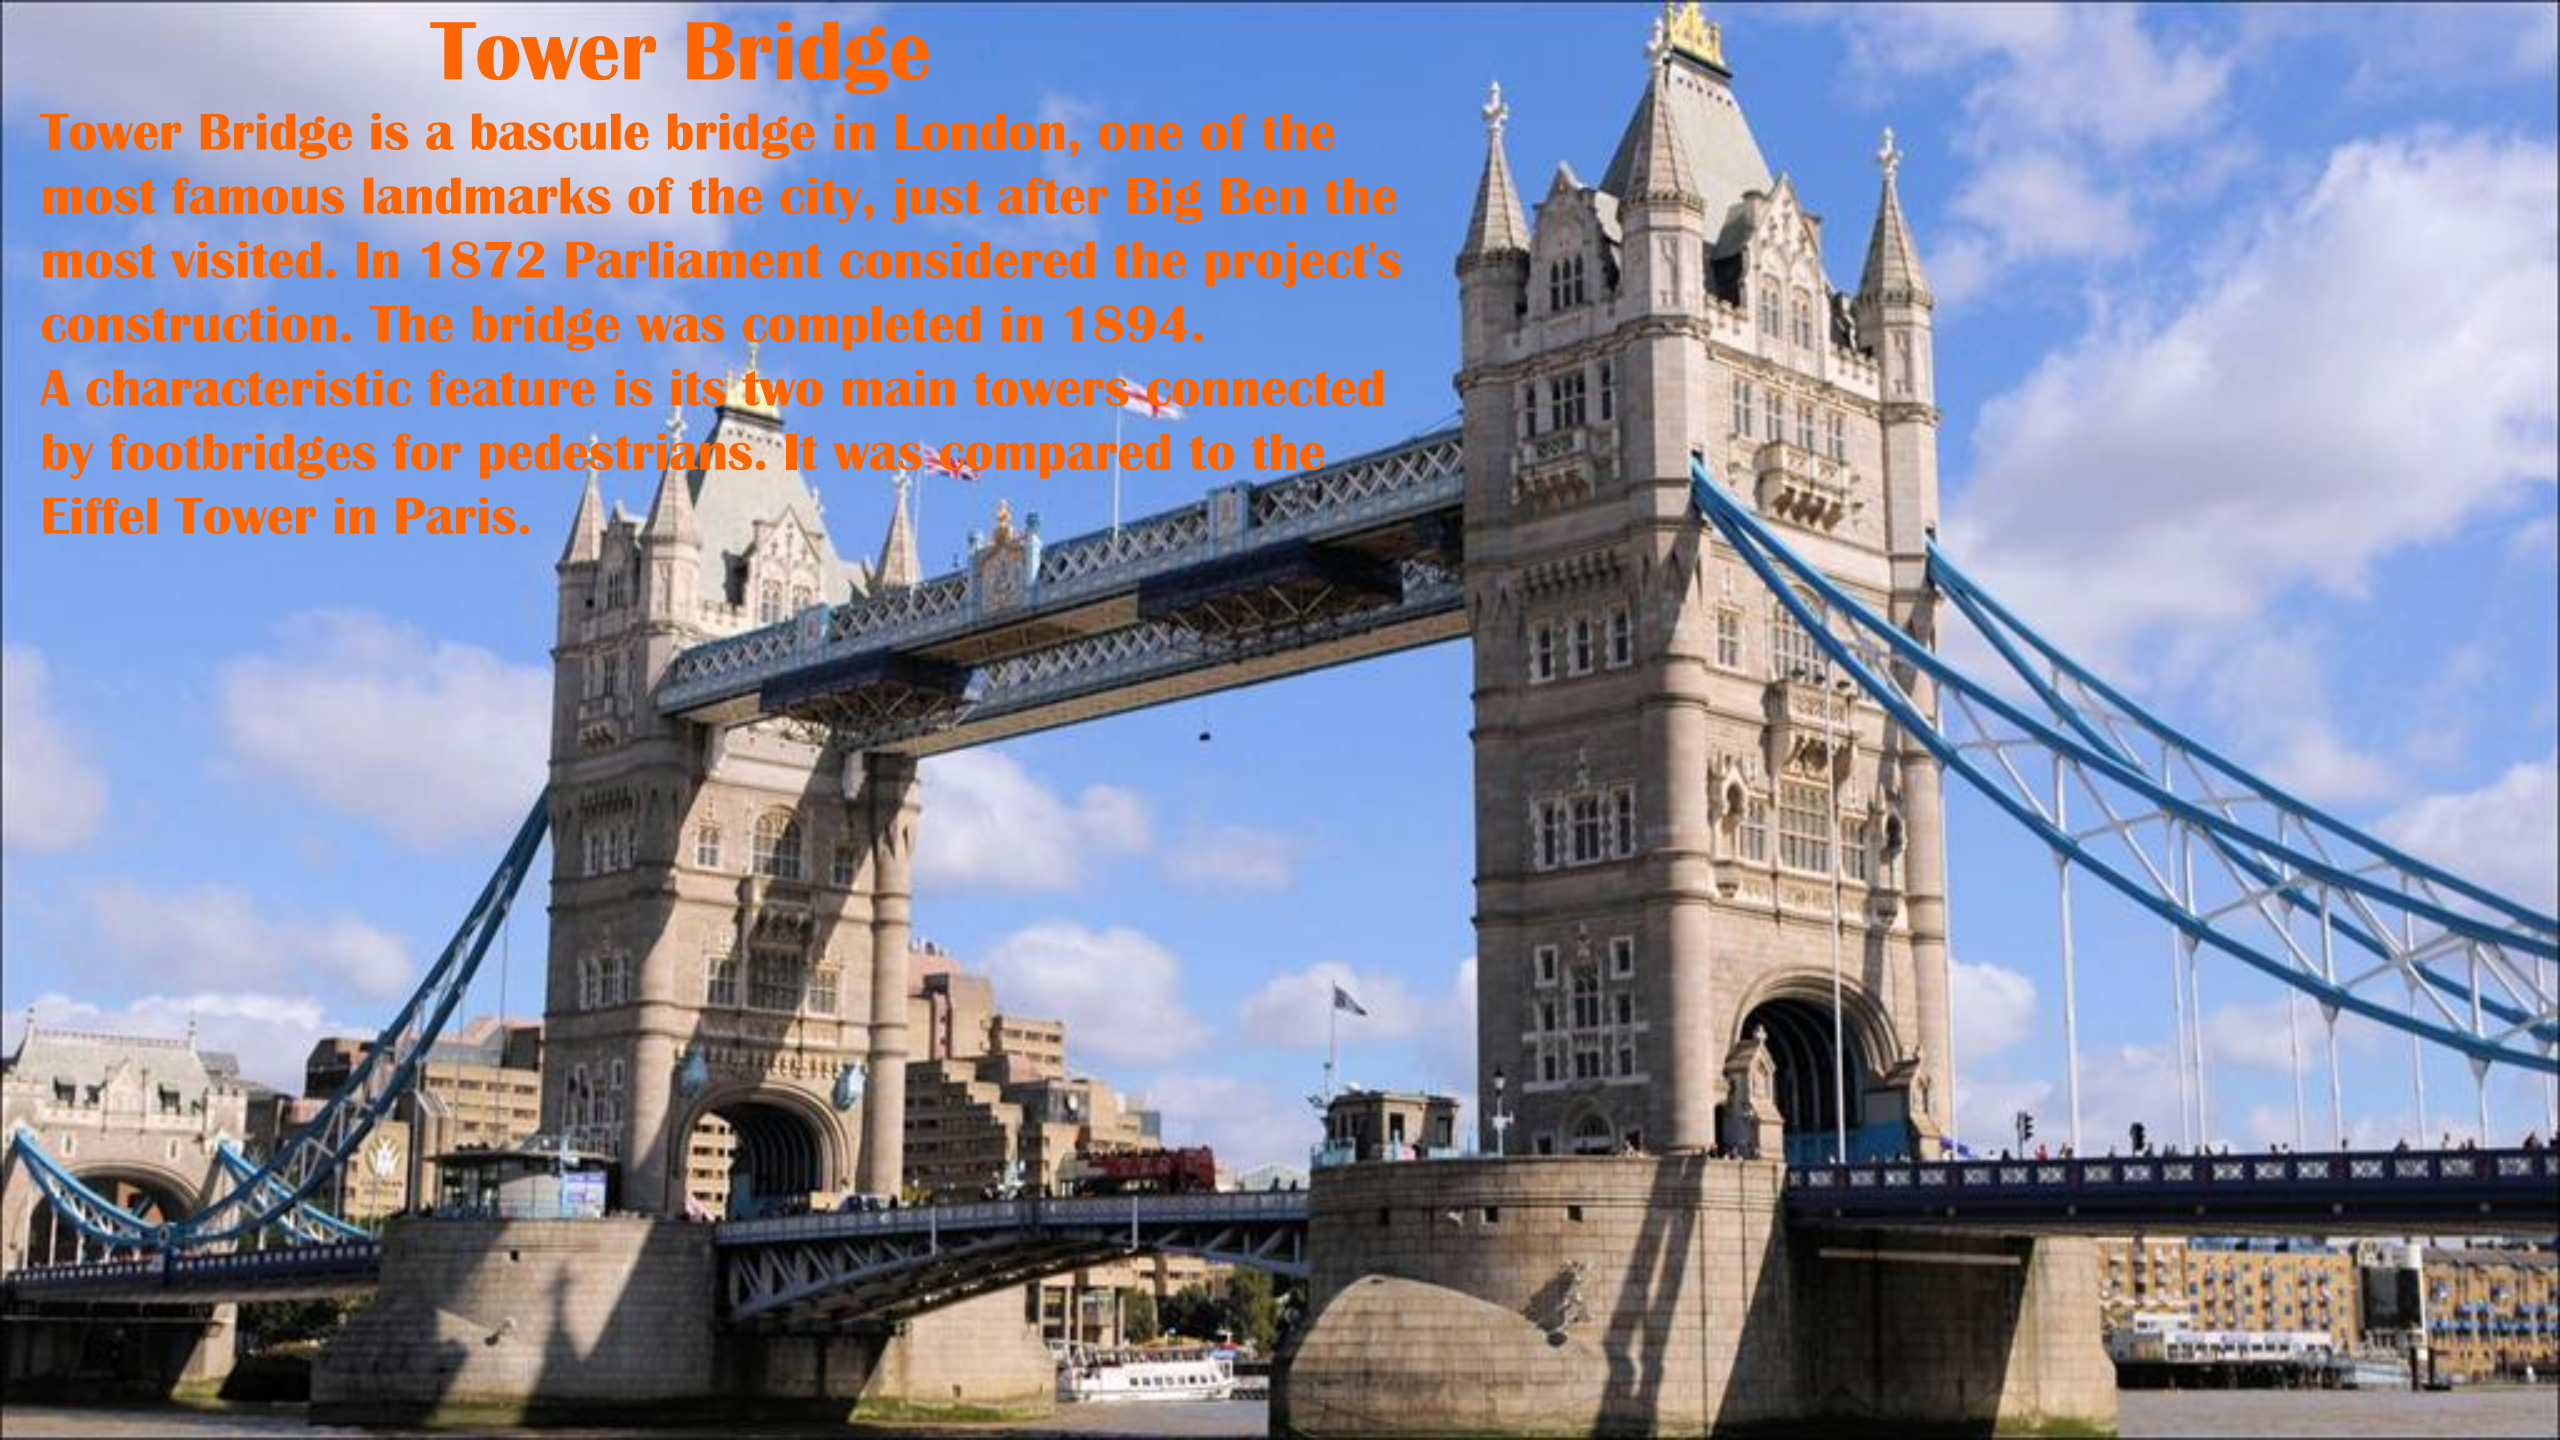

**Big Ben is the name of a bell placed on the top of the tower with a height of 96 meters, which is one of the best known symbols of the United Kingdom. It is housed in the Tower of St. Stephen, also known as the Clock Tower. The name originally referred only to the bell, but now it is used for the clock. This is one of the most frequently visited places in London.**

# Tower Bridge

**Tower Bridge is a bascule bridge in London, one of the most famous landmarks of the city, just after Big Ben the most visited. In 1872 Parliament considered the project's construction. The bridge was completed in 1894.**

**A characteristic feature is its two main towers connected by footbridges for pedestrians. It was compared to the Eiffel Tower in Paris.**

# London Eye

**The London Eye is opposite the Parliament. The world's largest observation wheel was built in 1999. You can take a ride and watch the whole city.**

# Buckingham Palace

**The world's largest royal palace, which since 1837 has been the residence of the royal family. One of the architectural gems of the late Baroque. It was built in 1703.**

**Our favorite attraction is the London Eye because you can see a beautiful panorama of the city and have a great fun.**
